Want to learn more about
the exciting world of AV??

Find out all about the Audiovisual (AV) Industry and the exciting work that Audio Video Systems (AVS), a leading Washington, D.C. systems integrator, is doing every day.

Join us for an introduction to the AV Industry & what AVS has been doing, followed by a panel and Q&A session with some of AVS' up-and-coming engineering and integration staff.

Information will also be provided about AVS and ITT's new Job Shadowing program, which will allow select members of ITT graduating classes to come work with an AVS employee for a day. The program will allow students who are exploring career options to experience the AV Industry by shadowing an AVS employee and get a good understanding of the type of work AVS does daily.

Come join us to find out more!

The presentation is a part of AV Week, an annual international celebration of the AV Industry.

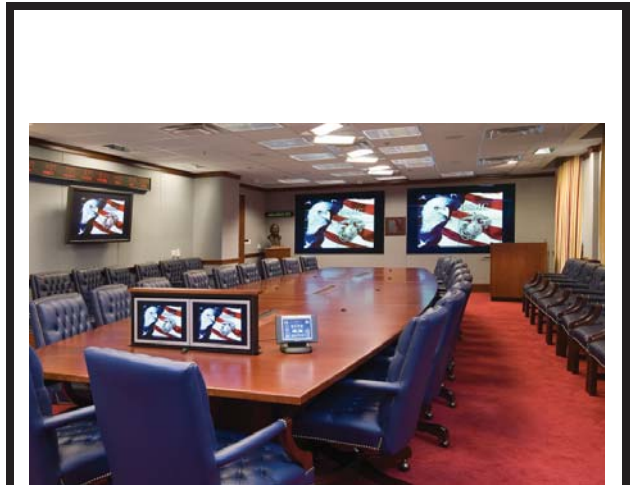

The presentation will be located in the Mega Lab on the Chantilly campus of ITT Technical Institute on Wednesday October 21, from 5:00 to 6:00 P.M.
