

Public Review and Comment

Public comments and responses for *3M-2011 Projected Image System Contrast Ratio* can be found [here](#).

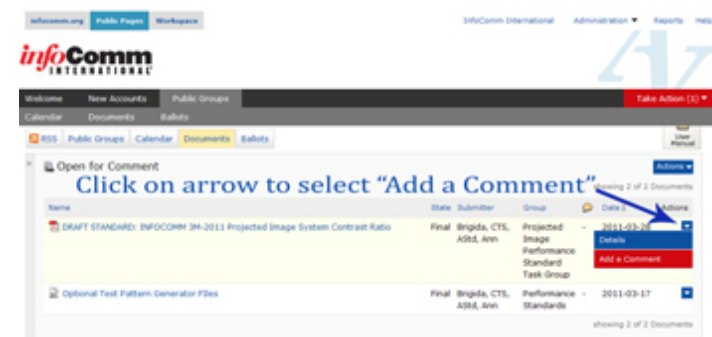

There are no standards open for public review at this time.

This is a screenshot of what you will see when you select the link.

Step Two: Submit your [comments](#).

This is a screenshot of what you will see when you select the link.

Complete the comment form. Be sure to select the "Submit Comment" button at the bottom of the form!

Thank you for contributing to the public review process. All comments are addressed and made available per ANSI guidelines.

After the Review Period

After the 45-day public review ends, all comments are addressed. If there are no comments, the Draft Standard 1 will be presented to the Board of Directors for an approval ballot. Once approved by the Board of Directors, the standard is submitted to ANSI for acceptance. InfoComm's standards are available for purchase at the [ANSI standards store](#).

These procedures are outlined in detail in the procedures manuals found in the Public Groups documents folder.
