

Reports

Make researched decisions, not educated guesses.

InfoComm continually conducts market research to advance the industry and improve member company businesses. InfoComm's market reports are well priced and members receive great discounts.

FREE Economic Snapshot Surveys & Business Trends Reports

The InfoComm International Economic Snapshot Survey examines the overall "economic health" of the AV industry, and brings into focus the issues, factors and trends affecting business performance on an international scale.

The InfoComm International Business Trends Reports examines trends within the industry and puts them in context to shape discussions about the future of the AV industry and to help you adapt your business and be more competitive.
