

# EVS101 Event Setup for AV Techs Online

*EVS101 Event Setup for AV Techs Online* is the online version of InfoComm's [AV Setup Guide for Events, Meetings, Conferences, and Classrooms](#) book. This course offers logical, easy to understand step-by-step procedures for new employees. In addition, the course tests comprehension of the material, incorporates video demonstrations on pipe and drape installation and folding screen set up, and provides a downloadable reference. Students can get answers to some frequently asked troubleshooting questions and practice connecting equipment in proper sequence using interactive graphics.

This course:

- takes the knowledge of experienced installation technicians and industry experts and captures it in one online program, including highlighted “best practices”
- lets the employer offer training to new staff without pulling one of his/her own employees from a job to provide it
- provides instruction developed by an award-winning team of instructional designers
- provides consistent training, available 24 hours a day, 7 days a week
- provides section tests that can be sent to the supervisor to track students' progress

## Audience

This course is perfect for newly hired staff responsible for AV event setup. The content is also valuable for event planners, educational AV techs, and any staff responsible for setting up an event that includes audiovisual presentation. For managers, this well-designed and logical content is invaluable for training new staff. Why reinvent the wheel? The groundwork has been done for you, and it's all in one place!

## Materials

It is strongly recommended students acquire the book [AV Setup Guide for Events, Meetings, Conference, and Classrooms](#) to use as a reference upon completion of this course.
