

DES213 AV Design Principles

July 1-3, 2009

Sydney, Australia

ICAL

Course Fees

Members: AUD 1,200*

Applicable EduBucks: 25%

Non-Members AUD 1,800*

*+10% GST

This three-day classroom course explores elements that affect the planning and design of the infrastructure supporting AV environments including HVAC, electrical, cable pathways, lighting, IT connectivity, etc. During this course, you will create a portfolio documenting recommended design processes and sample documentation for reference while working on future AV design projects.

This course is valuable for anyone who works in or has the responsibility for the design of audiovisual facilities, including AV designers, engineers, senior designers, senior engineers, and project managers.

Prerequisite for this course is *DES201 Design Online*.
