

AV News & Research

For those in the AV industry and those hoping to learn about it, InfoComm International is a vital source of audiovisual news, information and research.

InfoComm publications present the AV body of knowledge, addressing general AV knowledge, installation, design, best practices, and basic staging and event management. Content from the InfoComm Academy curriculum is assembled by industry experts into books that are relevant, timely and replete with photos and practical how-to examples. Market research reports provide the information you need to make business decisions.
